"That's Me—JD," In My Iris, June 7, 1932

A Dream That Came True

Some years ago I bought an Iris root about as big as my thumb. The label said **DREAM**. But there are dreams—and dreams. Also, sometimes labels lie.

So until blooming season I wasn't sure that my Dream would come true, nor what sort of Dream it might be.

But it did come true. And I'm telling you it was a **LOVELY DREAM**. Since then, Dream has increased several thousand fold.

In the garden picture above you see this delightful Dream—8 long rows of it. Many thousand blossoms of lovely lavender-pink.

While a single plant or even one blossom is pleasing, yet to get the biggest thrill you should have Dream in quantities—clumps, rows, borders. Thus you will have pleasant Dreams for indoors also, and to give to your friends. The Iris buds open beautifully in the house, like Glads. One stalk will remain in flower for days after being cut.

At my low quantity prices, you can have a flock of Dreams at small cost. 10 divisions for \$1.00. 25 for \$2.00. 50 for \$3.50. 100 for \$6.00. All prepaid. My stocks are correctly labeled. So YOUR dreams will surely come true.

LONG'S Named Iris for Fall Delivery, 1932

Note this: This iris blossom is tripartite. Three portions stand erect, their tips meeting. These are called the **standards**. Three droop. These are called the **falls**. Often the two sets are of different colors, shadings or markings. In describing iris blossoms "S" means standards, "F" means falls.

Fragrant Freesias

Prepaid.

Very beautiful, graceful and delightfully fragrant.

Culture. Pot the bulbs in September or October for best results. Set the pots in cool place for a few weeks or more. Then place in or near window. If plants quite tall, use small sticks and twine to fence them in. Early potted bulbs bloom for Christmas.

White Purity Strain. (10 for 30c) (25, 60c)
Rainbow Mixture. Colored Freesias in mixture. (10 for 40c) (25 for 80c).
GOLDEN DAFFODIL FREESIAS. New, Rich golden yellow. (10 for 50c) (25 for \$1.00).

Lily of the Valley

LILY OF THE VALLEY answers that question: "What can I grow in shade or partial shade?" Thrives also out in the open, but is especially valuable for places where many other flowers will not grow. May be planted in clumps, or the clumps may be pulled apart, making 30 or more single roots. Good way to get quick results is to make 5 to 8 smaller clumps from the one I send you. Use fine sand liberally in soil when planting, give plenty of water, and your plants will bloom and spread nicely.

lv. (Clump, \$1.00) (3 clumps, \$2.25) (6 clumps, \$4.00) (1/2 clump, 65c). Plant any time before ground freezes.

"J. D. Sez, Sez 'e"

I'm not rambling this summer as heretofore. Ain seeing Colorado first. And not much of Colorado. My ramblings are confined to a very small circle with Boulder as the center.

While I greatly miss seeing all the boys—and girls—at the many Glad Shows from coast to coast, yet I am glad that the law of compensation has not been repealed.

I'm having the time of my life right here watching my own Glad Show. And it's some show. Fortunately, Nature is providing an abundance of irrigation water at my beck and call so that my Glads are making a sturdy, healthy growth.

Also, lucky do not have the Thrip problem. Maybe the Thrips don't like our mile high altitude, light air and mountain scenery. Or perhaps they have an aversion to cold shower baths from my automatically operated Skinner overhead pipes, fed with soft water from melting snows and glaciers about thirty miles west of my gardens.

I get a great kick watching the new and near-new varieties come into bloom. Some mornings I'm out as soon as light enough to see.

The one real calamity that happened was the breaking of one of my prized Solveig plants by a frolicsome kitten, which mistook it for a telephone pole.

It's little short of a crime that I had to condense my descriptions of many fine Glads in this catalog. Please note that I've not attempted to give all the markings and shades, but just the main color effects in descriptions. Had to boil it down to keep within sixteen pages.

But here are some of the new and near-new kinds that have shown up unusually well this summer.

AIDA. Don't cry if you can't have the moon, or *Pelegrina*. Some say Aida is fully as richly colored as the newer *Pelegrina*. **AVE MARIA** is bringing in enthusiastic reports from coast to coast. Here's one from Des Moines that came in the other day. "Hooray for Ave Maria, my first spike to show color. About the prettiest shade of near blue that I have seen and stands the heat exceptionally well." **BLUE DANUBE** amazed me this season with its massive tall spikes and large, well-placed blooms to match. **COMMANDER KOEHL** set a new record. The spikes were almost without exception tall and straight, the blooms immense, well-faced and plenty of them open at a time, with many more buds ready to prolong the display. It's a wonderful Glad. **CORONADO** has also supplied many beautiful blooms, even larger than the one illustrated on the back of this catalog. **VAN TETS** and **MAID OF ORLEANS** certainly made an imprint among the whites. **MAROCCO** goes to the other extreme and is the darkest maroon, almost black. **MISS GREELEY** has caught the fancy of commercial growers because it enables them to supply their florists with cut Glads that take the place of Phipps three weeks earlier before the Phipps crop comes in. **OUR SELECTION** has increased so splendidly that I can now offer it within the reach of all. This is the spectacular Australian Glad different from anything originated in our country. **PICARDY** stands at the head of the class of new Glads. **RED PHIPPS** is making many friends judging from the splendid reports coming in. The first one being from Cuba. One enthusiastic grower from Indiana, writes, "Red Phipps is destined to be the finest and most popular of all reds. Many have seen it here and it has surely gone over big." It has so many good points and so few faults, if any, that its continued popularity is assured. **SOLVEIG** has not bloomed at this writing, but am sure it will live up to its reputation gained at the National Show a year ago.

Here's good news. I'm building a new bulb house, two stories with cement basement, frost proof, of course. This will be equipped with racks to hold many more sliding trays, bulblet tight and practically fool proof.

The good news for you is that I shall now have room to store the bulbs you buy in the fall, and deliver the next spring if this will accommodate you. Heretofore, I didn't have the room for this. While I still prefer to ship fall orders as soon as ready and many customers want them in their own possession during the winter, yet if it will help you out, a payment of one-fourth the amount of the order will hold your bulbs in storage for delivery any time during the winter or next spring.

August 22nd. Since above was written, Solveig has bloomed "as advertised." Great!

Last week, I took a lot of Glads to the lovely Flower Show staged in the Brown Palace Hotel by the Home Garden Club of Denver. Did not compete for prizes. Glads especially admired were Commander Koehl, Our Selection, Red Phipps, Coronado, Mother Machree, Ave Maria, Picardy and King Arthur. All were charmingly arranged by Jack Clow, the genial florist whose nifty "Blossom Show" is located in the Brown Palace building. A picture of the Red Phipps basket and a Denver Glad fan, R. E. Ewalt, appeared in the Rocky Mountain News. Mr. Ewalt grabbed off most of the prizes in Glad section, taking two on Coronado.

SONG'S Annual Fall Sale of Gladiolus Bulbs

At Digging-Time Prices—Fall Delivery

Yes, it has become a habit with me to offer gladiolus bulbs and bulbets in my fall catalogue.

It would be almost impossible for me to break this habit, even if I wanted to do so. Because many of my customers have also formed a habit—of buying part or all their glads in the fall. They would just about compel me to “deliver the goods” in accordance with habits of “Long” standing.

It's good business to buy glads in the fall. Fall buying gives you the pick of the stock, assures your getting the varieties and sizes you want and at very reasonable prices.

Then, too, it's fun having your bulbs and bulbets right where you can watch them and keep them safely through the winter. Just to “paw them over” from time to time, and visualize the rare and beautiful spikes of bloom they will produce, is no small compensation, as any real fan well knows.

Three Size Glad Bulbs

The **LARGE BULBS** measure (in diameter) from $1\frac{1}{4}$ inch up, mixed sizes. This size is designated by the “**L**”.

MEDIUM BULBS measure $\frac{3}{4}$ inch up, mixed sizes. These **Medium Bulbs** bloom splendidly, though the large bulbs make still larger spikes or more of them. Medium Bulbs are designated by letter “**M**”.

SMALL BULBS are designated by the letter “**S**”. They measure $\frac{3}{8}$ inch up. Not sold as blooming sizes, yet many do bloom. They make fine large bulbs for next year.

NOTE: It will help us in filling your Glad bulb orders if you will mention the size each time: Large, Medium, Small, or, just the letters, **L**, **M**, or **S**.

Prices, Terms, Delivery

Gladiolus prices are guaranteed for this fall only. Many of these offers will be withdrawn altogether after this fall.

At digging-time prices, I prepay Glad orders amounting to not less than \$1.00. I can be more liberal in filling your Glad order if it runs around \$3.00 or more. The larger the order, the more you get for your money.

Each item on your Glad order must amount to not less than 15c.

TERMS: Cash with order, or $\frac{1}{4}$ cash with order, balance C. O. D. Or send $\frac{1}{4}$ with order, and balance any time before we are ready to ship.

DELIVERY: I pay all postage or express charges, and guarantee safe delivery. (My choice, whether parcel post of express.)

If your express office is different from your mail address, please be **SURE** to give express office address also when ordering.

Please do not order in smaller quantities than listed. (5 or more bulbs at the 10 rate, but must amount to not less than 15c.)

SONG'S Long Count

As my old customers know, your GLAD orders will be filled most liberally. I could promise you more for your money but like to surprise you by doing better than I offer. The larger the order, the more liberal the overcount.

LONG'S Long Season ASSORTMENTS

Each Assortment will be of one variety but the bulbs will be mixed sizes, from about 1/2 inch up to 1 1/2 or so. The idea is that different size bulbs bloom at different times. So by planting the assorted sizes you get a LONG SEASON OF BLOOM of a variety from the one planting.

Here's where I check up on myself. I'm going to offer these \$1.00 assortments, giving you only the names of the varieties. I'll send you plenty bulbs to give you a good big \$1.00 worth of any variety below. But I'm not taking space to specify the number of bulbs. You'll find that out when you open your package. I'm sorta curious to know how many of you are willing to take a "Long chance."

Here are the varieties. Each assortment is one variety only, the bulbs are mixed sizes and the price for a single assortment is \$1.00. Super-special offers at the bottom of page.

APLAME	MAROCCO
AIDA	MINUET
ALBATROS	MISS DES MOINES
AVE MARIA	MISS GREELEY

Now You Tell One!

Wish I had space to quote many of the enthusiastic reports on newer Glads. Here's one from Ft. Collins, Colo. "Blue Danube lacked 4 inches of standing 6 feet tall, 20 to 26 buds and blossoms."

Away up in Lewistown, Mont., not far from Yellowstone Park: "Commander Koehl is the most wonderful Glad in my garden. Spikes 5 feet 8 inches tall and the most gorgeous blooms I ever saw. Florets 7 inches across. Everyone goes just wild about them."

This from Roseville, Ill., nearly knocked me cold—at first. "I would like to voice a grievance with you. I planted your stock first of April and either your stock is no good or my ground is no good. From Miss Greeley bulbets I only got 98%, Coryphee 90%, Winged Victory 94%, J. Van Tets, 100%. Our Selection tall with perfect double rows of blooms. I will always be a booster of J. D. Long bulbs. I bought of three other growers, but didn't have to put a roof over them to stunt their growth."

LONG'S Glad Collections

All collections are planned for far in advance, the kinds and quantities based on what I can spare at these special prices. So please do not ask for changes. You can give away some and still have big value left.

The "Surprise" in each collection is something extra in Glads, my selection. Don't miss it when unpacking. **"I hope you like it."**

Of course, if you're going to get mad about my sending more than I agree to give, then better tip me off and I'll govern myself accordingly. But better "Leave it to me—JD."

"The Big Ones Got Away"

Snap shot of some of my J. Van Tets Glads, taken after the first and largest had been cut. Nothing small about these. Note the tall spikes, large blooms, many open, sturdy healthy growth. "Not a thrip in a car load."

Don't Worry About Glad Prices

Leave that to me—JD. I've a great capacity for worrying. May specialize in this some time with sign, "First class worrying done here by the hour, day or week. Rates reasonable."

My fall Glad prices are made out early. If am too low on some items, that's your good luck. If a bit high, I'll send plenty more Glads to adjust. Thus prices are in your favor "in the Long run."

Bulblets per Pkt., 100, 1,000

The number of bulblets in a packet is based on the 100 or 1000 price for that variety. Real good value always. **The larger the order, the more liberal the overcount.**

Just What Is Good Value?

Paper and printer's ink can make all Glad bulbs look alike as to purity, pep, freedom from disease and other points.

But there can be a whale of a difference in stocks delivered. Many of you will say, **"I found that out."**

Experienced buyers bear this in mind. They know that JD's combination of price and quality wins **"in the Long run."**

Some Rare Bulbs Free

The following offers of extra bulbs free apply only to Glads ordered from my 1932 fall catalog from September 1st until my spring catalog is mailed in January. **The spring catalog cancels all offers in fall lists.**

Both very impressive, account many large blooms open.

Consider E. F. Palmer Glads

When a Palmer variety is offered, you can safely add that to your list of really splendid Glads, even without seeing it. Mr. Palmer of Vineland Station, Ontario, Canada, gives us new colors and color combinations, and large, lovely blooms. Start a **"Palmer collection."**

Larger Lots of Gladiolus Bulbs at Wholesale Prices

25 or more bulbs at the 100 rate. Pint or half-pint bulblets at quart rate. If sold out of size ordered, will send size smaller, adding more bulbs to make up the difference in price unless you request otherwise. (You may order 10 at 100 rate of varieties priced at \$10.00 or more per 100 for No. 1 size. No item less than 15c.)

Please Make Out Your Own Orders.

My slogan, "Leave it to me—JD" is misinterpreted some times. It means that I'll look after your order and see that you get your money's worth, and then some.

But I need a definite order to work on. There's a growing tendency for customers to send me checks and simply say, "I'll leave it to JD to select Glads for me."

Two reasons why this can't be done in justice to myself and the customer. One is that I don't know what size bulbs you want or how high in prices you care to go. The other is that it's impossible for me to personally go through the Glad list and select for very many customers. If I'd been born triplets I might do so. But being just one lone JD, I can't. So kindly make your order from catalogue. I'll take the time to run through it and make red ink notations before it is filled. That's my system. "I hope you like it."

Solange Peonies

grown by Mrs. Minnie K. Dennis near Estes Park, Colorado, at an altitude of over 7,000 feet.

They were picked and brought into the house when only partly open, the best way to treat this and most other Peonies.

See page 2 for Peony prices.

Now You Can Have CORONADO

Have had such "good luck" increasing my stock of **CORONADO** that can now supply at practically painless prices.

Coronado Special •

18 Bulbs, Mixed Sizes,
for \$1.00, Prepaid.

Gladiolus, "Coronado".

Immense white Glad with rich purple throat. Edges of petals heavily ruffled. Large bulbs 15c each; 5 for 60c. Medium bulbs, 2 for 15c; 5 for 30c. Small bulbs, 5 for 15c. All prepaid.

One Glad fan writes: "If I could have but one Glad, I'd want it to be Coronado." I do not claim it to be a world-beater, but it's delightfully different.

"I hope you like it."
